COLD CREAM WITH GINSENG COFFEE

FOR AN ENERGIZING BREAK WITH THE TASTE OF GINSENG COFFEE

A new sensory experience, which energizes and delights the palate.

An Italian original recipe, for all the trendiest places.

Ideal with modern machines for cold creams, which allow you to obtain the perfect consistency, the Cremino Ginseng Almar is made with carefully selected raw materials and without hydrogenated fats. All the properties and taste of traditional Italian ginseng, enclosed in a delicious cold cream with a perfect consistency.

8 GOOD REASONS TO CHOOSE CREMINO GINSENG ALMAR

- 1. Delicious and healthy:** an energizing cold cream, gluten-free - GMO-free - without preservatives or hydrogenated fats.
- 2. It is unique:** the only cold cream with the real taste of traditional Italian ginseng.
- 3. Easy preparation:** just add the Ginseng Cremino preparation to the water in a machine for cold creams.
- 4. Quick serving:** it doesn't waste time in the room.
- 5. One product, many recipes:** by changing only topping and additional ingredients you can create a lot of different recipes.
- 6. High profit:** the cost per serving is very low. The selling price is about 7 times the cost per serving.
- 7. Self-selling:** the customer, only seeing the machine in action in the shop, asks for the product spontaneously.
- 8. Environment friendly:** the packaging is 100% recyclable.

The new product that makes the difference and grows up your sales!

Packaging: 400g bag (25 bags for each box).

Shelf life: 36 months. Store at room temperature.

Recommended machine: machine for cold creams.

How to serve: glass of 130/150 ml.

ADV and POP support: table menu.

HOW TO PREPARE:

+

One bag of Cremino Ginseng + 600ml of water

Mix very well the content of one bag with water

Pour the mix into the machine

After 30/40 minutes the product is ready to be served

15 servings

In a separate bowl, dilute very well with the use of a whisk 400g of product with 600ml of water. Pour the mix into the tank of the machine. After 30/40 minutes, Cremino Ginseng is ready to be served - Nr. 15 portions per bag.

Night preservation

If at the end of the day there is some product left in the machine, simply adjust the machine to the maintenance position to keep the product fresh while consuming very little energy. The day after set again the machine to the maximum power. After 15 minutes the product is ready again to be served.

Machine: cleaning and maintenance

The maintenance of the machine is very simple: it is enough to clean the small radiator on the rear side once a month, removing the dust that has settled. Once or twice a week remove the tank and wash it in the sink together with the spiral. This operation takes no more than 5/10 minutes.
